Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region
InterLATA Services Pursuant to Section 271 of the Telecommunications Act of
1996
Docket No. 2001-209-C

Dear Mr. Terreni:

Enclosed for filing are the original and 10 copies of BellSouth Telecommunications, Inc.'s ("BellSouth's") performance data change Notification Reports for February 2005 and preliminary March 2005. These data change Notification Reports are being provided to inform the Commission of the changes BellSouth plans to make to its Performance Measures Analysis Platform ("PMAP") with February data, and previews the changes BellSouth is considering making for March data. A Data Disclosure Report for January 2005 would be filed at this time as well, if needed; however, for January 2005 there are no additional South Carolina validated data issues to be disclosed that affect performance measurement calculations for which a fix has not yet been scheduled.

Sincerely,

A handwritten signature in black ink that reads "Patrick W. Turner". The signature is written in a cursive, flowing style.

Patrick W. Turner

PROPOSED FEBRUARY 2005 DATA NOTIFICATION

BellSouth proposes making the changes described in this document to generate results for the February 2005 data month. Results for the February 2005 data month will be posted as follows:

Preliminary results March 21, 2005
Final results March 31, 2005

BellSouth provides Data Notifications each month in compliance with the Georgia Public Service Commission's Order of July 19, 2002. This order specifies that when BellSouth proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

The "Affected Measures" described in this notice are those set forth in the Georgia Service Quality Measurement ("SQM") Plan, unless otherwise noted. All "Impact of Change" descriptions are stated at the measurement level, unless the sub-metric level is specified.

ENCORE Releases may affect monthly data flows from the source systems (*e.g.*, LEO, LESOG, etc.) that PMAP uses to calculate measurements. Bellsouth will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

Ordering Measurements

(1) *Affected Measures:* OSS-1

Description of Change: Currently, PMAP is counting test transaction for LENS and EDI in the CLEC volume for this measure. BellSouth proposes to exclude these test transactions. This proposed change was Item (1) on the Preliminary February Data Notification filed on December 1, 2004. (RQ5877)

Impact of Change: For September 2004, .02% of the LENS transactions were test transactions. For EDI, .003% were test transactions.

(2) *Affected Measures:* O-9 (Georgia and Kentucky)

Description of Change: Currently, the minimum number of minutes for the >6 hour interval bucket for this measure is set to 369 minutes instead of 360 minutes. This is causing LSRs confirmed between 360 and 368 minutes not to be reported in this interval bucket. BellSouth proposes to correct this problem. This proposed change was Item (2) on the Preliminary February Data Notification filed on December 1, 2004. (RQ5944)

Impact of Change: None to measurement results.

Provisioning Measurements

- (3) *Affected Measures:* P-4, P-4A & P-10

Description of Change: Since introduction of Encore Release 14.0, some orders do not have the “L” appointment code applied if the original committed due date requested is later than the calculated date offered by the Due Date Calculator. BellSouth proposes to change PMAP coding to recognize these orders as “L” appointment coded. (RQ5695)

Impact of Change: For July 2004, in Georgia, UNE Loop and Port Dispatch, <10 would decrease by 329 records. The interval would be reduced from 5.79 days to 5.59 days.

- (4) *Affected Measures:* P-7, P-7A, P-7B & P-7C

Description of Change: Currently, BellSouth is displaying an extra character to the beginning of the ACNA code in the raw data for these measures. BellSouth proposes to remove the extra character to the ACNA. This proposed change was Item (3) on the Preliminary February Data Notification filed on December 1, 2004. (RQ5809)

Impact of Change: None to measurement results.

565038

PRELIMINARY MARCH 2005 DATA NOTIFICATION

BellSouth is considering making the changes described in this document to generate results for the March 2005 data month. Results for the March 2005 data month will be posted as follows:

Preliminary results April 21, 2005
Final results May 2, 2005

BellSouth provides Data Notifications each month in compliance with the Georgia Public Service Commission's Order of July 19, 2002. This order specifies that when BellSouth proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

The "Affected Measures" described in this notice are those set forth in the Georgia Service Quality Measurement ("SQM") Plan, unless otherwise noted. All "Impact of Change" descriptions are stated at the measurement level, unless the sub-metric level is specified.

ENCORE Releases may affect monthly data flows from the source systems (*e.g.*, LEO, LESOG, etc.) that PMAP uses to calculate measurements. Bellsouth will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

Provisioning Measurements

- (1) *Affected Measures:* P-3, P-4, P-4A, P-5, P-6, P-9 & P-10

Description of Change: Currently, orders disconnecting BellSouth.net service, from a line where the voice service is provided via Resale or UNE-P, are being counted as a voice order for the voice service. BellSouth proposes to exclude these disconnect records from the data, per the SQM. (RQ5905)

Impact of Change: For July 2004, in Georgia, 22 Resale Business orders and 15 UNE Loop and Port orders would have been removed from data with no impact to the interval.
